DESCRIPTION

This sumptuous 36m yacht with its modern and elegant design is the perfect compromise for a luxurious and relaxing experience. Its aluminum hull perfectly designed by Van Oossanen allows the 10 guests on board to enjoy the lightness offered by the yacht to relax.

5 cabins will have the pleasure to welcome guests with refined tastes. The charm of the Master Suite on the main deck is unmistakable.

In such a sumptuous setting, a service must be present. That's why a crew of 5 members will embark with you to satisfy your every wish and desire.

The crew/guest ratio is ½ which will allow each person on board to live a customized and personalized experience.

The trend being the lifestyle, you will only have to go down from the main deck and join the beach club for a cure of vitamin D thanks to a radiant sun. Reaching out to touch the water will be the only effort of the day to refresh yourself.
